

STELLENAUSSCHREIBUNG VIENNA OR REMOTE WORK (M/F/D)

FRONTEND SOFTWARE ENGINEER (ANGULAR)

The Future of Finance – today.

Finmatics is a fast-growing software as a service (SaaS) company that provides artificial intelligence (AI) solutions to thousands of businesses of all sizes. Our mission is to automate financial & accounting processes in order to eliminate unnecessary manual tasks.

As **Frontend Software Engineer (Angular)**, your work will be a critical part of accomplishing this mission.

You will

- Design and implement applications with state-of-the-art frameworks for business users
- Work in a multi-disciplinary team (Data Scientists, Frontend Engineers, Backend Engineers, Dev-Ops Engineers)
- Focus on Usability, UX and Code Quality
- Introduce and implement innovative frontend technologies and architectures

We're looking for someone who has:

- Software engineering experience in production environments (min. 3 years)
- Familiarity with Angular 2+, OOP design principles, test-driven development
- Empathy, effective communication skills and a deep respect for the power of collaboration
- A learning mindset, regardless of level or experience
- High standards for code quality and a constructive attitude to help others raise the bar
- High standards for usability and a UI/UX mindset
- UI/UX as well as technology in mind

Our Tech Stack (Frontend)

- Angular 13
- TypeScript,
- NgRx,
- RxJS,
- Node.js
- Redux
- GitLab including GitLab CI/CD, Mockito, Fastlane, git

What we offer:

Be part of shaping the future of financial workflows using the latest technical possibilities.

- Pleasant working atmosphere in the middle of Vienna or from our office in Budapest
- Possibility to work fully remote
- Open and honest corporate culture
- Independent work and short decision-making paths
- Young, dynamic team and flat hierarchies
- Flexible working hours
- Job ticket for Wiener Linien
- The minimum salary for this position is € 55,000, overpayment possible depending on qualifications

INTERESTED?

Send us your CV and, if you have anything else to tell us, to jobs@finmatics.com. A separate letter of motivation is not a must. We are looking forward to your application!
